

SCR System Additive

cod. HP450

DESCRIPTION OF PRODUCT

New additive for the liquid used in diesel engines with SCR technology.

Used continuously with a ratio of 1% SCR system liquid avoids the formation of scale on the injector placed in the exhaust system, favoring its operation and duration.

The constant use of the product avoids the formation of saline agglomerates and limestone in the exhaust gas pipeline.

FIELD OF USE

Diesel technology SCR.

USE

100 ml of product treats 10 liters of SCR system liquid.
